## General Information for Educators

### Purpose of this Guide

This guide provides information on the reports provided for Utah Aspire Plus assessment. This guide, which outlines and explains elements of the individual student report, preliminary student detail report, parent portal, test scores and test events data files, is intended for use by administrators, teachers, counselors, and other educators to facilitate interpretation and use of student score reports.

### About Utah Aspire Plus

The Utah Aspire Plus summative assessments were created as directed by Utah Statute 53E-4-304, which requires the Utah State Board of Education (USBE) to administer an assessment to ninth and tenth grade students that is predictive of the college readiness assessment (the ACT). Creating a link between Utah's ninth and tenth grade state assessment and the ACT, which is administered to eleventh grade students in Utah, provides a unique and beneficial achievement metric for students, parents, and teachers.

The Utah Aspire Plus summative assessments are fixed-form tests given for English, mathematics, reading, and science. While the test was administered online, it is not computer adaptive. This means that every ninth grade student is asked the same ninth grade questions, and every tenth grade student is asked the same tenth grade questions. Key measurement targets for each test are listed below:

- English: language conventions and comprehension.
- Math: linear relationships, abstract and quantitative reasoning, and problem solving.
- Reading: reading and comprehending complex informational and literary texts.
- Science: gathering and investigating, developing models, using mathematical thinking, and constructing explanations across life science, earth and space science, and physical science.

The Utah Aspire Plus tests utilize various question types to assess student achievement, including multiple choice, multiple select, evidence-based selected response, and technology enhanced (TE) items. Multiple choice questions provide students with four or five response options from which there is one correct answer. Multiple select questions require students to select two or three correct answers within the given response options. Technology enhanced (TE) questions require specialized interactions for capturing student responses. Examples of TE questions used on the Utah Aspire Plus are listed below:

- Inline choice interaction: drop-down multiple choice
- Text-entry interaction: fill-in-the-blank item presentation
- Hot text interaction: selecting elements within a given image (e.g., reading passage)
- Plot/drawing interaction: plotting/drawing on a grid
- Matching interaction: matching response elements to appropriate category

Evidence-based selected response questions are two items combined to form a two-part item. Typically, Part A is a multiple-choice item in which students are asked to infer or analyze, and Part B is an item in which students provide evidence to support their answer in Part A. Evidence-based questions may consist of two multiple choice items, or a combination of multiple choice and

technology enhanced (TE) interaction items.

Student responses to Utah Aspire Plus questions are calculated and reported using a scaled score. The purpose of scaled scores is to report scores for all test-takers on a scale that remains consistent across multiple years or forms. This facilitates accurate comparison of test results over different administrations.

Before test questions are published for use, every question is reviewed by Utah educators for standard alignment, appropriate content and cognitive demands, fairness, and bias. Data and statistical information from test results are analyzed and reviewed frequently to ensure the response processes and internal structure perform as expected for all groups of students. Technical information about Utah Aspire Plus will be available in the Utah Aspire Plus [Technical Report](#) which is posted to the [Resource Center](#).

### **Confidentiality of Reporting Results**

Individual student performance results on Utah Aspire Plus assessments are confidential and may be released only in accordance with the Family Educational Rights and Privacy Act of 1974 (20 U.S.C. Section 1232g).

---

## OnDemand Reports –Student Detail Report

The OnDemand Report –Student Detail Report provides student performance data prior to the release of the Individual Student Report (ISR). OnDemand Reports consist of subject-specific reports and an overall composite score report. OnDemand Reports will be available within 24 hours of testing.

The Student Detail Report for the English, reading, mathematics, and science tests can be accessed by LEA Assessment Directors, school administrators, and teachers in PearsonAccess<sup>next</sup>.

### Administrators and Teachers can access the Student Detail Report by:

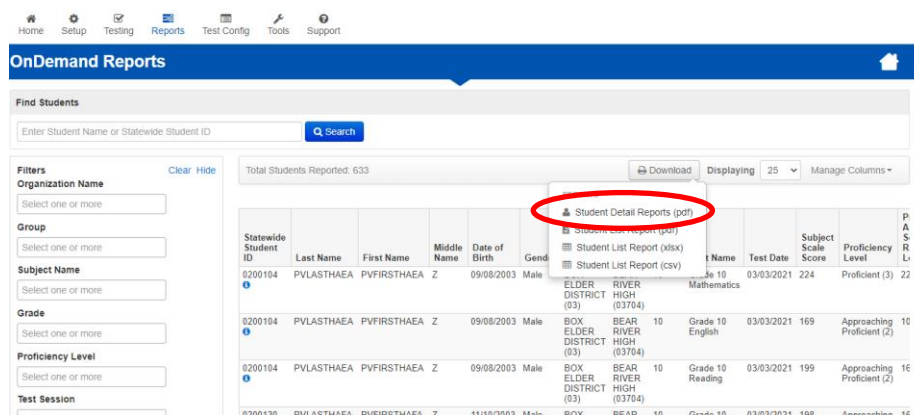

1. Log in to PearsonAccess<sup>next</sup> here: [PearsonAccess<sup>next</sup>](#)
2. Within PearsonAccess<sup>next</sup>, ensure the correct administration and school are selected in the top right corner of the home screen.

3. Go to **Reports** and select **OnDemand Reports**.

4. You can filter by **Student Name or SSID, Organization Name, Subject Name, Grade, Proficiency Level and more** to help you locate the report for specific students.
5. Select certain students by clicking on the  or to print all reports select **Download** and then **Student Detail Report (pdf)**. Administrators can also download the list view that is shown on the screen by selecting the **Student List Report**.

**Predicted Composite ACT Score Range: 21-24**

Your student took the Utah Grade 09 Assessment in Spring 2023. This report shows the predicted composite ACT score range.

**What does your student's score mean?**

Based on your student's performance on the four Utah Aspire Plus subject areas (English, mathematics, reading, and science), this report shows the predicted range for your student's composite ACT score. This score range is provided for students who take all four assessments. Postsecondary readiness is defined by Utah as a composite ACT score of 18 or higher.

Your student's Predicted Composite ACT Score Range: 21 - 24

Your student's College Readiness: On Target

#### Predicted ACT Composite Score

Test	Predicted Composite ACT Score Range	Postsecondary Readiness Target	Postsecondary Readiness
Composite	21 - 24	18	On Target

For more information on the predicted ACT score range, see the [Score Interpretation Guide for Parents](#).

To access your student's performance results online, visit the at [Utah Aspire Plus Parent Portal](#). To access this performance and set up your parent/guardian account access, use claim code **BWNXd4tZpLrH**. If you have additional questions about your student's scores, please contact your student's teacher or guidance counselor.

Produced on 12/8/2022

## Individual Student Reports

The Individual Student Report (ISR) provides student performance data on the Utah Aspire Plus summative assessments. There are two main components to the ISR: postsecondary readiness predictive scores and Utah core standards-based proficiency. ISRs will be made available on May 26, 2023.

The ISR will contain all test scores including math, science, English, reading, and ACT predicted scores. Parents can access their student's ISR through the Parent Portal. Administrators can access the report via PearsonAccess<sup>next</sup>.

### Accessing Individual Student Reports – Administrators and Teachers

Administrators and teachers can access the Individual Student Report by:

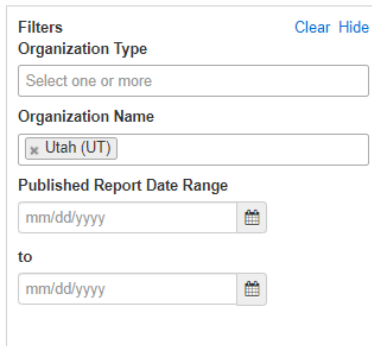

1. Log in to PearsonAccess<sup>next</sup> here: [PearsonAccess<sup>next</sup>](#)
2. Within PearsonAccess<sup>next</sup>, ensure the correct administration and school are selected in the top right corner of the home screen.

3. Go to **Reports** and select **Published Reports**.

4. You can filter by **Organization Type** or **Organization Name** to help you locate the desired ISR.

A screenshot of the 'Filters' section in PearsonAccessNext. The section is titled 'Filters' and has a 'Clear Hide' link. It contains three filter sections: 'Organization Type' with a dropdown menu showing 'Select one or more'; 'Organization Name' with a text input field containing 'Utah (UT)'; and 'Published Report Date Range' with two date pickers. The first date picker is labeled 'mm/dd/yyyy' and the second is labeled 'to' with 'mm/dd/yyyy' below it.

5. Select the file you wish to download and click **Download**.

The screenshot shows the 'Published Reports' section of a web application. At the top, there are navigation links: Home, Setup, Testing, Reports, Test Config, Tools, and Support. Below this is a 'Published Reports' header with a search bar and a 'Download' button circled in red. A 'Find Reports' section contains a search bar and filters. The search results table shows one result: 'Utah Aspire Plus Summative Individual Student Report Grade 10', with its file name circled in red. The table columns are File Name, Size (KB), Date Published, and Organization Name.

### Sample Individual Student Report (ISR)

**UTAH ASPIRE PLUS GRADE 9 ASSESSMENT 2022-2023**  
**COMPOSITE SCALE SCORE AND PREDICTED ACT SCORE**  
 Your student took the Utah Grade 9 Assessment in May of 2023. Below you will find the composite scale score and predicted ACT score, followed by the subject area predicted ACT scores.

Composite Scale Score	Predicted ACT Score Range*	Postsecondary Readiness Pre	Utah Aspire Plus Individual Student Report (ISR) Legend
384	21-24	Not on Target	A Identification Information
*For more information on the predicted ACT score range, see the <a href="#">Score Interpretation Guide for</a>			B Composite Scale Score and Predicted ACT Score
Below you will find the predicted ACT subject scores based on performance in reading, English,			C Subject Area ACT Predicted Scores
Subject Area	Predicted ACT Score Range*	ACT College Readiness Bench	D Subject Area Scale Scores and Utah Proficiency Levels
Reading	21-24	Not on Target	E Parent Portal and Claim Code
English	24-27	Not on Target	
Math	17-20	Not on Target	
Science	15-18	Not on Target	

\*\*ACT College Readiness Benchmarks for Subjects: Students who score at or above these scores (22-Reading, 18-English, 22-Math, 23-Science) are more likely to be successful in college courses taken by first-year students.

**SUBJECT AREA SCALE SCORES AND UTAH PROFICIENCY LEVELS**  
 Below you will find your student's scale scores by subject area and Utah Proficiency levels. For more information on cut scores, see the [Utah Core Standards](#).

Subject	Scale Score (Confidence Range)	Utah Proficiency Level
Reading	394 (389-399)	4 Highly Proficient
English	384 (380-388)	3 Proficient
Math	284 (283-286)	2 Approaching Proficient
Science	184 (181-187)	1 Below Proficient

**RESOURCES**  
 To access your student's performance results online, visit the [Utah Aspire Plus Parent Portal](#), or use the QR Code to the right with a smartphone, tablet, or other device. To set up your parent account access for the Utah Aspire Plus Parent Portal, use claim code **xjSdhEgc2ljz**. If you have additional questions about these scores, contact your student's teacher or guidance counselor.

## Accessing the Claim Code for Student Results in Parent Portal

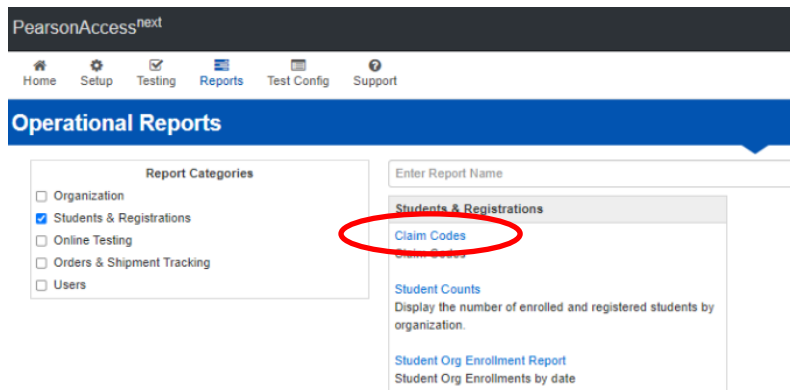

The Score Interpretation Guide for Parents ([PearsonAccess<sup>next</sup> Reporting Resources](#)) is available to help parents understand how to access and interpret their student's score reports. Parents can access student results within the Parent Portal. Parents must create an account within the portal to access student information. To set up an account, parents will need the student's administration claim code. Claim codes are available on the student's Individual report, OnDemand preliminary student detail report, and on the PearsonAccess<sup>next</sup> claim code operational report. Once parents create their account, they can access student results in the [Parent Portal](#) by entering the student's first name, last name, and the claim code. This URL appears at the bottom of the student's individual student report (ISR).

### Accessing parent claim codes via PearsonAccess<sup>next</sup> - Administrators:

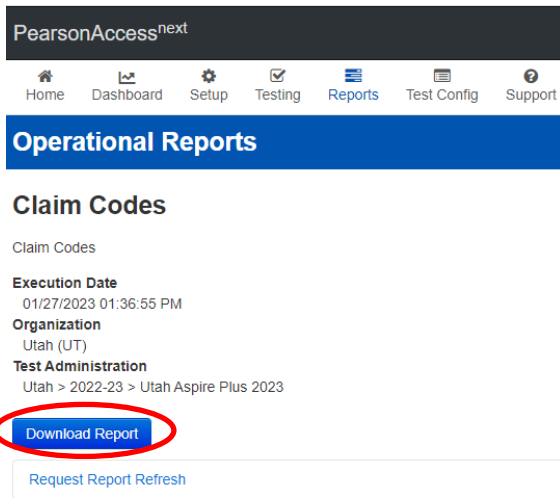

1. Log in to PearsonAccess<sup>next</sup> here: [PearsonAccess<sup>next</sup>](#)
2. Within PearsonAccess<sup>next</sup>, ensure the correct administration and school are selected in the top right corner of the home screen.

3. Go to **Reports** and select **Operational Reports**.
4. Select **Student Registrations**, then click on **Claim Codes**.

5. Click the **Download Report** to download a list of claim codes.

## The Parent Portal

The purpose of the parent portal is to provide parents with a convenient way to access their student's Utah Aspire Plus student performance data. ISRs will be posted and made available to parents on the Parent Portal on May 30, 2023.

At the top of the Parent Portal there is general information on student data privacy and Utah Aspire Plus assessment results. The site describes the scores provided for Utah Aspire Plus and it includes a link to additional information about interpreting student test scores. A Pearson help desk contact is provided for additional assistance on accessing student test scores.

A student's test score results can be found using the last name, first name, and claim code as seen in the screenshot below. The claim code can be found on the Individual Student Report (ISR), Preliminary Student Detail Report, or obtained from the student's school administrators.

# Parent Portal

## Data Confidentiality and Disclosure

Individual student performance results on Utah Aspire Plus assessments are confidential and may be released only in accordance with the Family Educational Rights and Privacy Act of 1974 (20 U.S.C. Section 1232g). For more information on student privacy, please visit [USBE Data Privacy Site](#).

## Utah Aspire Plus Results

This portal displays your student's performance results compared to the Utah State Standards and proficiencies. Below you will find your student's scaled score and proficiency level for each subject.

Proficiency levels are:

- Below Proficient (1)
- Proficient (3)
- Approaching Proficient (2)
- Highly Proficient (4)

You may be able to see your student's performance results from previous years' administrations if you have used this portal in previous years. When reviewing your student's scores, please note the year of administration under your student's name (see screenshot below). Generally, results are displayed with the most recent test scores first. You may need to scroll down to view your student's older test scores.

## Detailed Component Description

### **A** Identification Information

The student’s name, grade, school, and LEA are provided.

### **B** Composite Scale Score and Predicted ACT Score

The student’s composite scale score and predicted ACT composite score range are provided. The composite scale score is the average of the four Utah Aspire Plus assessments (English, reading, mathematics, and science) and is provided for students who take all four assessments.

One purpose of the Utah Aspire Plus assessment is to provide predictive ACT scores. Students’ test scores on Utah Aspire Plus are linked to ranges of predicted ACT scores. The predicted ACT composite score range graphic is comprised of two levels, Not on Target and On Target, along the ACT scale (0–36). A predicted ACT composite score of 18 or higher indicates “on target” for Utah’s postsecondary readiness benchmark while scores below 18 indicate “not on target” for postsecondary readiness. The student’s predicted score range is indicated by a black bar within the graphic. If the student’s predicted ACT score range crosses over the benchmark score (18), the student is indicated as being ‘On Target’. The predicted ACT score ranges are determined through a statistical linking process.

### **C** Subject Area ACT Predicted Scores

This section of the report provides the student’s predicted ACT score ranges for the subject tests (math, English, reading and science). Student test scores from Utah Aspire Plus are linked to the ACT scale to obtain a predicted score range on each ACT subject test. Each predicted ACT score range is provided within graphics that distinguish predicted scores below the subject ACT College Readiness Benchmark score as “Not on Target” and those on or above the subject ACT College Readiness Benchmark score as “On Target.” The student’s predicted score range for each subject test is indicated by a black bar within each graphic. If the student’s predicted subject test ACT score range crosses over the ACT College Readiness Benchmark score, the student is indicated as being ‘On Target’.

The ACT College Readiness benchmarks, as described in the ACT® Technical Manual, are empirically derived performance targets on the ACT that represent the level of achievement required for students to have a 50% chance of obtaining a B or higher or a 75% chance of obtaining a C or higher in corresponding credit-bearing first year college courses. Table 1 contains the college readiness for each subject test. For information on the ACT college readiness benchmarks, please refer to the [ACT Technical Manual](#).

**Table 1. ACT College Readiness Benchmarks**

Subject Test	The ACT College Readiness Benchmark
English	18
Reading	22
Mathematics	22
Science	23

## D Subject Area Scale Scores and Utah Proficiency Levels

For each subject test, a student’s scale score is provided with a confidence range below it. The confidence range represents the expected range of a student’s score if the student took the same form of the test multiple times.

Students’ test performance is summarized by proficiency levels which indicate the extent to which students demonstrate knowledge and skills on the assessment. There are four proficiency levels for Utah Aspire Plus:

- Level 4: Highly Proficient
- Level 3: Proficient
- Level 2: Approaching Proficient
- Level 1: Below Proficient

The proficiency levels are defined by performance level descriptors which outline the knowledge and skills that students should know and be able to do to be classified in each level. The proficiency level descriptors (PLDs) for Utah Aspire Plus are provided in Appendix A.

The student’s proficiency level for each subject test is determined by their subject test scale score. Cut scores that differentiate one proficiency level from another were determined through a collaborative process known as standard setting. During this process, Utah educators and educational measurement specialists reviewed the Utah Aspire Plus summative assessments along with the Utah Core Standards and PLDs to provide judgments on what students should know and be able to do at each proficiency level. A multi-round process of educator judgments, data review, and discussion resulted in a set of recommended cut scores for each Utah Aspire Plus assessment. The Utah State Board of Education formally adopted the cut scores for the Utah Aspire Plus assessments. The cut scores define the scale score ranges for each proficiency level. Table 2 provides the scale score ranges that define each proficiency level for each Utah Aspire Plus summative assessment.

**Table 2. Utah Aspire Plus Proficiency Scale Score Ranges**

Grade	Subject	Below Proficient	Approaching Proficient	Proficient	Highly Proficient
9	English	100 to 164	165 to 201	202 to 241	242 to 300
	Reading	100 to 165	166 to 203	204 to 230	231 to 300
	Mathematics	100 to 171	172 to 205	206 to 232	233 to 300
	Science*	100 to 186	187 to 210	211 to 236	237 to 300
10	English	100 to 160	161 to 199	200 to 244	245 to 300
	Reading	100 to 174	175 to 203	204 to 234	235 to 300
	Mathematics	100 to 180	181 to 209	210 to 235	236 to 300
	Science*	100 to 186	187 to 209	210 to 239	240 to 300

The student proficiency level is provided within a “meter” graphic on the score report that shows an approximate position of the scale score within the base range (100–300).

**Note:** The size of the shaded regions does not indicate size of score range by proficiency level or proportion of students.

\*The Utah State Board of Education adopted new science standards for high school in June of 2019. The first administration of the new science assessment occurred in spring of 2021.

## **E** Parent Portal and Claim Code

Parents and guardians can access student results, including the student's individual student report (ISR), within the Parent Portal. Parents must create an account within the portal to access student information.

To set up an account, parents will need the student's administration claim code. Schools provide the claim code to the parents. There are three ways to provide the claim code:

1. The student's Individual report (ISR)
2. OnDemand report
3. The PearsonAccess<sup>next</sup> claim code operational report.

Once an account is created, parents can access student results in the [Parent Portal](#) by entering the student's first name, last name, and the claim code. This URL appears at the bottom of the student's individual student report (ISR) and the OnDemand report.

# Data Files for LEA Administrators

## Test Events Data File

The LEA level Test Events Data file will provide a .csv file that has detailed information on the student tests. The Test Events Data file will be available on May 26, 2023. The Test Events Data file layout can help you understand and locate the data that is present in the Test Events data file and includes the following information:

- Student Name, Grade, and SSID
- Testing and Reporting School and District Name and Number
- Student Testing Information by Subject
  - Participation Code
  - Subject Tested
  - Test Duration (Time Spent on Items)
  - Number of Items Student Visited
  - Number of Items Student Attempted
  - Accommodation(s) Used by Student

### LEA Administrators and Teachers can access Test Events Data File by:

1. Log in to PearsonAccess<sup>next</sup> here: [PearsonAccess<sup>next</sup>](#)
2. Within PearsonAccess<sup>next</sup>, ensure the correct administration and school are selected in the top right corner of the home screen.

3. From the **Reports** menu, select **Published Reports**.

4. Type the file name (test events) into the search field and click **Search**.
5. Select the Test Events Data File you want to download by clicking the hyperlink to the report.

<b>Test Events Data File Layout - 1/27/23</b>			
Reference	Field Name	Valid Values	Comments / Sample Data

You can find the complete Test Events Data File layout at this location: [Test Events Data File Layout](#)

## Test Scores Data File

The LEA level Test Scores Data file provides finalized score information for student tests. The Test Scores Data file will be available on May 26, 2023. The Test Scores Data file layout can help you understand and locate the data that is present in the Test Scores data file and includes the following:

- Student Name, Grade, and SSID
- Testing and Reporting School and District Name and Number
- Student Composite Scale Score and Predicted ACT Score
- Student Scale Score, Proficiency Level, Theta Score (by Subject)
- STEM and ELA Scale Score and Proficiency Level
- Raw and Theta Scores by Reporting Category (by Subject)
- Test Duration (Time Spent on Items) by Subject
- Participation Codes

### LEA Administrators and Teachers can access Test Scores Data File by:

1. Log in to PearsonAccess<sup>next</sup> here: [PearsonAccess<sup>next</sup>](#)
2. Within PearsonAccess<sup>next</sup>, ensure the correct administration and school are selected in the top right corner of the home screen.

3. From the **Reports** menu, select **Published Reports**.

4. Type the file name (test scores) into the search field and click **Search**.
5. Select the report(s) you want to download by clicking the hyperlink to the report.

<b>Test Scores Data File Layout - 1/27/23</b>			
<b>Reference</b>	<b>Field Name</b>	<b>Valid Values</b>	<b>Comments / Sample Data</b>

## Appendix A: Utah Aspire Plus Performance Level Descriptors

English Grades 9 and 10			
Below Proficient	Approaching Proficient	Proficient	Highly Proficient
The level 1 students can <b>partially access</b> grade-level content and engage with higher- order thinking skills with extensive support.	The level 2 students can access grade-level content and engage in higher-order thinking skills with <b>minimal independence and some support</b> .	The level 3 students can access grade-level content, and <b>independently</b> engages in <b>higher-order</b> thinking skills. This level of performance also likely indicates students are on track to be sufficiently prepared for college or career.	The level 4 students can go beyond grade-level content, and <b>independently</b> engages in <b>higher-order</b> thinking skills.  This level of performance also likely indicates students are on track to be well-prepared for college or career.

Reading Grades 9 and 10			
Below Proficient	Approaching Proficient	Proficient	Highly Proficient
The level 1 students can <b>partially access</b> grade-level content and engage with higher-order thinking skills with extensive support.	The level 2 students can access grade-level content and engages in higher-order thinking skills with <b>minimal independence and some support</b> .	The level 3 students can access grade-level content, and independently engages in <b>higher-order</b> thinking skills.  This level of performance also likely indicates students are on track to be sufficiently prepared for college or career.	The level 4 students can go beyond grade-level content, and <b>independently</b> engages in <b>higher-order</b> thinking skills. This level of performance also likely indicates students are on track to be well-prepared for college or career.

**Mathematics**  
**Secondary Math I & II**

<b>Below Proficient</b>	<b>Approaching Proficient</b>	<b>Proficient</b>	<b>Highly Proficient</b>
<p>The Level 1 students are below proficient in applying the mathematics knowledge/skills as specified in the Utah Core State Standards. The students generally perform significantly below the standard for their grade level and are likely able to partially access grade-level content with extensive support.</p>	<p>The Level 2 students are approaching proficient in applying the mathematics knowledge/skills as specified in the Utah Core State Standards. The students generally perform slightly below the standard for their grade level and are likely able to access grade-level content with moderate support.</p>	<p>The Level 3 students are proficient in applying the mathematics knowledge/skills as specified in the Utah Core State Standards. The students generally perform at the standard for their grade level and can access grade-level content with minimal support. This level of mathematics performance also likely indicates students are on track to be sufficiently prepared for college or career.</p>	<p>The Level 4 students are highly proficient in applying the mathematics knowledge/skills as specified in the Utah Core State Standards. The students generally perform significantly above the standard for their grade level and can access above grade-level content. This level of mathematics performance also likely indicates students are on track to be well-prepared for college or career.</p>

**Science  
Grades 9 and 10**

<b>Below Proficient</b>	<b>Approaching Proficient</b>	<b>Proficient</b>	<b>Highly Proficient</b>
<p>The Level 1 students are below proficient in achieving or applying the science attitudes and knowledge/ skills as specified in the Utah Core Standards. The students generally perform significantly below the standard for their grade level and are able to engage with higher-order thinking skills for all science contexts with extensive support.</p>	<p>The Level 2 students are approaching proficient in achieving or applying the science attitudes and knowledge/skills as specified in the Utah Core Standards. The students generally perform slightly below the standard for their grade level and are likely able to engage in higher-order thinking skills for all science contexts with support.</p>	<p>The Level 3 students are proficient in achieving or applying the science attitudes and knowledge/skills as specified in the Utah Core Standards. The students generally perform at the standard for their grade level and are able to engage in higher-order thinking skills for all science contexts with independence and minimal support. This level of science performance likely indicates students are on track to be sufficiently prepared for college or a career.</p>	<p>The Level 4 students are highly proficient in achieving or applying the science attitudes and knowledge/skills as specified in the Utah Core Standards. The students generally perform above the standard for their grade level and are able to engage in higher-order thinking skills involving all science contexts independently. This level of science performance likely indicates students are on track to be well-prepared for college or a career.</p>
